

Online learning:
any time, any place.

TonkaOnline

Tonka Online is a supplemental online program at Minnetonka High School that provides students an engaging learning experience.

All Tonka Online courses are taught by experienced Minnetonka teachers. In fact, most teach the same class both online and in a Minnetonka High School classroom. Each course is designed specifically for online learning and meets the highest quality curricular expectations of the Minnetonka School District. Teachers use familiar learning tools like Schoology and Google Tools for Education to deliver lessons and engage with students online. All courses are approved by the Minnesota Department of Education and NCAA.

Students choose to take Tonka Online courses for many reasons: to prepare for advanced curriculum, open their schedules for another course or elective, or to participate in a signature program like IB, Minnetonka Research, and VANTAGE. Tonka Online makes a personalized, four-year plan possible for many students.

In addition to meeting requirements and taking advantage of unique courses, students gain skills in online learning they will need for college, career and professional development. Because Minnetonka teachers are available to meet with students in-person to provide help, it's really the best of both worlds for Minnetonka students.

IMPORTANT DATES

“With Tonka Online, you have a Minnetonka teacher-student relationship so you can ask questions and get help. And because there are other students on the discussion board, you have a class community feel, but also a very personal experience.”
